## Impact Report

April 2022- March 2023

NSPCWT organised 4 large events in 2022-2023, on behalf of stakeholders, providing an opportunity for all to directly engage with the wider parent carer community, hear their experiences, and direct to appropriate support. These events also provide an important opportunity for professionals to network with other providers in North Somerset. A rolling programme of presentations at some events provides further opportunities for parent carers and practitioners to gain further knowledge and understanding of specific topics.

“The information, support, and reassurance we took away from the event was priceless.”

### Parent Carer Event Ratings

**53%**

Have a better understanding of how to help their Child / Young Person

**54%**

Know what their next step is

**58%**

Don't feel so alone

### Presentations

And many more...

**“We have been finding the processes slightly overwhelming and the ability to meet and talk to the people behind the emails, telephone calls and who could explain the acronyms and processes, was unbelievably helpful. I learnt more in the 2 hours at the event than I have since we started this journey”**
