

Puberty in Girls

"Wow!!! - free informative training on autism and puberty - plus a respectful reflective discussion afterwards. Really grateful to attend and share experiences and learn new things"

Dyspraxia

"It was really fantastic that Sue got the audience to participate in the workshop, learnt lots from other parents"

Dyscalculia

"A super useful and informative day, many thanks to all involved"

Foetal Alcohol Spectrum Disorder

"Fantastically facilitated - very relaxed and informal atmosphere allowing for lots of needed discussion!"

ADHD

"Absolutely amazing!! Highly recommended. I would definitely like to attend any further meetings explaining adhd and autism if there are any available. The meeting explained and covered so many things into clear detail. How to help your child now and throughout their lives but also to boost your confidence and knowledge as a parent. Also answering any questions as parents we had at the end of the meeting was amazing too. Please keep up the good work and help many more parents!!"

Young People and Supporting their Self esteem

"The facilitator was very good at what she's doing. She was very knowledgeable, friendly and approachable. We felt like we were in a room with a group of friends and were able to talk about anything"

Makaton for Children/Young People

"Excellent training course, thank you so much"
